

Liaquat Ali

Why I hope you will support me to be labour's parliamentary candidate and the next MP for Holborn & St Pancras?

Inequality has increased since the Tory-Led Coalition came to power in 2010. Youth unemployment is unacceptably high, the cost of housing is ever increasing and wages have stagnated. With the Lib Dems, the Tories have pushed through changes that are destroying our NHS, target hard working families and provide no hope for our children

**“ I Hope you may support me for PPC: I understand the needs of local people.
I will not be prepared to sit back; I will be out there
campaigning with and for everyone”**

Why Holborn & St Pancras?

Having many family, friends and business links in the area I know Holborn & St Pancras is all about community interaction. The borough is diverse and local people are richer for it. There aren't many places that celebrate their heritage and diversity hand in hand. I am certainly no career politician, having spoken to many members, other local residents, business leaders and they all tell me Holborn & St Pancras needs a community based unity candidate who understands the constraints and challenges local people face. Above all they want a candidate that is aligned and in touch with local people and will be prepared to stand up for them and not be motivated merely by self-interest and career progression.

My First Step? To meet with party members and motivate them and to develop a campaign strategy- sharing this with all activists. As a hard working campaigner, my campaign starts from day one. Also as a councillor I see what devastation this Tory-Led coalition is delivering daily to our communities – from the bedroom tax to cuts to tax credits for hard working families. Their agenda is clear with back door privatisation of our NHS and eroding rights of workers.

A community campaigner and a champion of small business. I'm a straight talking activist whose focus is always keenly aligned with the community grassroots. Should I secure your nomination I very much look forward to meeting and speaking with you to further expand on community campaigning and taking the Labour Party to every resident in the constituency?

Thank you for taking time to read this, the next 6 months will be crucial for the labour party both in Holborn & St Pancras and the country. I will be in contact with every member over the next few weeks to answer your questions and listen to your views of how we can together retain Holborn & St Pancras for Labour.

Yours Sincerely

Liaquat Ali
